

Year 6 SATs Results 2018

We are proud to share with you our provisional 2018 Year 6 SATs results - please see the table below. We are delighted that 100% of our pupils achieved the expected standard in all subjects! These results are significantly above the national and local average. In addition, more than half of our pupils achieved scaled scores that mean they are working significantly above the expected standard, which is a phenomenal achievement! Results such as these could not have been achieved without immense levels of dedication and hard work from our Year 6 pupils, who should be incredibly proud of their accomplishments! We'd also like to recognise the outstanding teachers throughout the school, but particularly in Year 6 this year, who have helped the children achieve these remarkable results.

| Subject | National 2018 % | Middleton 2018 % | National average scaled score | Middleton average scaled score |
|--|------------------------|-------------------------|--------------------------------------|---------------------------------------|
| Reading Expected standard + | 75% | 100% | 105 | 111 |
